Reading

My family and me

My family lives in a small house. It's simple but pretty. It has a large garden. I like to work in the garden but my sister hates to work in the garden. She prefers to read. She reads in the morning, in the afternoon and at night. I give all of the vegetables to mom and dad. They like to cook in our small kitchen. I eat any vegetable but my sister eats only a few.

My family always eats breakfast and dinner together. We talk. We laugh. Then my sister washes the dishes. At night dad likes to listen to music. Mom works on the computer. I watch television. And my sister reads. Soon we go to bed. My parents go to bed late but my sister and I stay a little bit longer.

Your heart is really a muscle. It's located a little to the left of the middle of your chest and it's about the size of your fist. There are a lot of muscles all around your body in your arms, in your legs, in your back, but the heart is a special kind of muscle because of what it does – the heart sends blood around your body. The blood provides your body with the oxygen and nutrients it needs. It also carries away the waste your body has to get rid of.

Reading

Your heart is sort of like a pump or two pump in one. The right side of your heart receives blood from the body and pumps it to the lungs. The left side of the heart does the exact opposite: it receives the blood from the lungs and pumps it out to the body. By the time you are grown up, your heart will be beating (pumping) about 70 times a minute.

Lucas goes to school every day of the week. He has many subjects to go to each school day: English, Art, Science, Mathematics, Gym, and History. His mother packs a big backpack full of books and lunch for Lucas. His first class is English, and he likes that teacher very much. His English teacher says that he is a good pupil, which Lucas knows means that she thinks he is a good student.

His next class is art. He draws on paper with crayons and pencils and sometimes uses a ruler. Lucas likes art. It is his favorite class. His third class is science. This class is very hard for Lucas to figure out, but he gets to work with his classmates a lot, which he likes to do. His friend, Kyle, works with Lucas in science class, and they have fun.

Then Lucas gets his break for lunch. He sits with Kyle while he eats. The principal, or the headmaster as some call him, likes to walk around and talk to students during lunch to check that they are all behaving.

The next class is Mathematics, which most of the students just call math. Kyle has trouble getting a good grade in Mathematics, but the teacher is very nice and helpful.

Thanksgiving

Thanksgiving is a holiday celebrated predominantly in North America, and it possesses a different meaning in each of the countries where it's acknowledged.

In the United States, Thanksgiving is a federal holiday (meaning all government employees and most private employees are given a day off of work), and always takes places on the **Fourth Thursday in November**, regardless of the date.

The holiday signifies the immense progress made by **pilgrims, or some of the first travelers to North America**, at Plymouth Plantation circa 1621. It was at this time that the hungry and weary Pilgrims were taught (by Native Americans) how to grow and produce food on North America's unique terrain. Once they'd grown (and caught) an abundance of food, the Pilgrims were expectedly thankful, and they celebrated alongside the Native Americans who provided them with such valuable assistance. President Abraham Lincoln initiated the contemporary practice of Thanksgiving by calling for a "day of Thanksgiving" during one of his Civil War addresses. In America today, Thanksgiving remains firmly engrained in its historical roots, and is widely considered to be a day for giving thanks for good food, good times, and family. **Thanksgiving dinner** generally consists of turkey, mashed potatoes, stuffing, vegetables, gravy, and ample desserts.

Mrs Smith is going shopping with her son. They are looking for a present for Mr Smith's birthday. Mrs Smith wants to buy him a new camera and Tom wants to buy him a jumper.

They drive to the department store on the high street. Mrs Smith uses the escalator to go to the Electrical Department on the third floor and Tom takes the stairs up to the Men's Clothing Department on the first floor.

When she gets to the Electrical Department she finds that cameras are sold in the Photography Department on the ground floor. She takes the elevator down and asks the sales assistant there for some help. She doesn't know much about cameras and needs some advice. He recommends an automatic camera by Olympus, but it is too expensive. She asks him if he has anything a little cheaper and he tells her about a special offer on the Pentax range. It still seems

Jeans were the classic clothes of the American West. In 1853, a young **tailor** from Germany, called Levi Strauss, began working in San Francisco; Levi sold thick **canvas** to miners; the miners used the canvas to make tents. One day, a miner told Levi that he could not find trousers that were strong enough for work in the gold mines. Levi decided to make some trousers out of canvas. Very soon, he had sold all the canvas trousers he had made! They were just what miners wanted. However, the canvas was rather heavy and **stiff**. Levi therefore began to look for a different textile; soon he found a heavy textile from France; it was called *serge de Nimes*. Americans just called this *de Nimes*, and this name soon got reduced to *denim*. Denim was a bit lighter than canvas, but it was very strong; it was ideal for miners. However, original denim was almost white, and miners did not like the color! Their denim trousers got dirty as soon as they began working! Levi Strauss therefore **chose** to use colored denim, and he **chose** dark blue. In 1873, he began to make denim trousers with metal rivets to make them stronger. This was a radical new idea: "Blue jeans" had arrived! Levi's jeans were so popular, that his company got bigger and bigger; soon, other firms were making blue jeans too. Miners liked them, but so did cowboys and work

Cristiano Ronaldo dos Santos Aveiro, born on February 5th, 1985 and commonly known as **Cristiano Ronaldo**, is a Portuguese footballer who plays as a forward for Spanish club Real Madrid and serves as captain of the Portuguese national team. Ronaldo currently holds the distinction of being the most expensive player in football history after having transferred to Real Madrid from Manchester United in a deal worth £80 million (€94m, US\$132m). His contract with Real Madrid is believed to have made him the highest-paid football player in the world. Ronaldo began his career as a youth player for Andorinha, where he played for two years, then moved to Nacional. In 1997, he made a move to Portuguese giants Sporting CP. Ronaldo's precocious talent caught the attention of Manchester United manager Alex Ferguson and he signed the 18-year-old for £12.24 million in 2003. The following season, Ronaldo won his first club honour, the FA Cup, and reached the Euro 2004 final with Portugal, in which tournament he scored his first international goal. In 2008, Ronaldo won the Champions League with United, and was named player of the tournament. He was named the FIFPro World Player of the Year and the FIFA World Player of the Year, in addition to becoming Manchester United's first *Ballon d'Or* winner in 40 years. Three-time Ballon d'Or winner Johan Cruyff said in an interview on 2 April 2008, "Ronaldo is better than George Best and Denis Law, who were two brilliant and great players in the history of United."
